Presentation on BlacKkKlansman :

BlacKkKlansman is a movie, released August 22,2018, directed by the director Spike Lee. The main actors are John David Washington in the role of Ron Stallworth, Adam Triver who play Flip Zimmerman and Topher Grace in David Duke. In the movie, a American becomes the first black officer has integrated Colorado Spings Police Departement, it's Ron Stallworth. He has the right to a bad reception, so he go to infiltrate the Ku Klux Klan. With help of his partner Zip Zimmerman, who pretends be him during the meetings. Their goal is to arrest the klan.

This film is interesting but I did not like that there is a little too much humor on a difficult subject, some scenes especially those with special effects were poorly made. The film was long, some scenes, I find do not advance the story.

I liked this movie for many reasons, the principal actor plays his role very good which helps treat racism in the United States. He tells a remarkable story on the segregation lightly. The music of the film puts us even more in the story. This film is very good because it sends a positive message, that it is necessary to fight against hate without thinking to the color of skin, and to unite, as Ron and Flip.I liked how in the movie, they arrive to discredit the Ku Klux Klan. Moreover the film is taken from real fact, so it shock us but make us liked this movie. The images of the end are shocking but they have their place. So I spent a good time watching this movie.

I think that everyone should see this movie, even if it's not perfect, it shows the audience the reality of the 70s. Today, we can see atmosphere that look like to the movie. So, it's a very good movie for me.
